

Adobe Illustrator CC 2018

A Division of GIL Consultancy Pte Ltd
Building Foundations for Excellence

Adobe Illustrator CC 2018 is perhaps the most comprehensive and powerful vector-based illustration software for print, for the web, and graphics that can be used in many other applications in presentations and reports.

This 2-day task-oriented Illustrator course will cover essential concepts and real-world (smart) workflow in producing vector-drawing graphics for both digital and print projects. You will learn through simple layman terms how to digitally draw to produce simple icons to complex Infographics . Through this fun learning process you will use a variety of drawing tools, ways to control colour, text, and artwork.

The new Illustrator CC 2018 offers you the ability to work faster with access to all your controls in one place, select multiple artboards at one time, align and organize them automatically on your canvas with just a click, use the Puppet Warp to create or modify a graphic without having to adjust individual paths or anchor points and many more.

If you love or have a passion for drawing, why not try drawing digitally? With Adobe Illustrator you can be free to express your creative ideas!

This Course is For

Learners with zero to little knowledge of using Adobe Illustrator CC 2018. Ideal for users who wants to learn produce Infographics for representations of information or to produce your own digital graphics.
